THURSDAY AUGUST 10, 1000

CLEARLY DEFINED.

The Seattle Post-Intelligencer agrees with that able exponent of McKinleyism, the New York Sun, in saying that "no silver man has a right to call himself a Republican." In fact, all Republican organs of national reputation express the same opinion, which is confirmed everywhere by the declarations of Republican conventions.

"It is nonsense to talk of silver Republicans or gold standard Democrats," says the Post-Intelligencer. "Oue might as well undertake to describe himself as a Christian atheist. A Republican is opposed to silver, a Democrat to the gold standard."

Then it proceeds to explain why it is necessary to subscribe to the creed of the single gold standard in order to be recognized as a Republican, or to affiliate with the Republican organization. It says: "The St. Louis convention was the only body authorized to declare the national policy of the party, and to define what Republicanism is. There is no appeal from its decision. It may have modified or changed its articles of political faith, but it had a right to change them if it wanted to. It was the supreme official organization, the anthoritative voice of the Republican parts. If any person who had theretofore been a Republican refused to subscribe to its platform, thenceforth he was not a R-publican,"

On the other hand, it shows why it is essential for silver men to be Democrate, and says: "No one has ever denied that the Chicago convention was regularly called and organized; no one has a right to deny its power to make par y fam.

That is the corre t theory. Republicans posing as silver men or Democrats as gold standardists are alike aftempting double roles, which cannot be carried together by the most accomplished actor on the political stage of the present day and generation.

ANYRODY TO BEAT BRYAN.

A Washington correspondent says the statement that Hon. W. O. Whitney, whose shrewd manipulation procured the last nomination Mr. Cleveland, in spite of seemingly invincible obstacles, has gone to Europe for the purpose of trying to persuade Admiral flammation and gives Tone and Energy to Dewey to allow his name to go before Syrup for children teething is pleasant to the next Democratic convention, as a candidate for the presidential nomi, the oldest and best female physicians and nation, while interesting, is not regarded in Washington as of any particular importance. Mr. Whitney has ow's Soothing Syrup." been hunting for sometime for anybody to beat Bryan, and has sounded a number of men as to their willingness to contest the nomination with Colonel Bryan. Nobody with the last night. There were 750,000 silver slightest political knowledge has dollars in the batch, and the shipments shown any disposition to do the impossible, and it is among the possibilities that Mr. Whitner, banking upon Admiral Dewey's ignorance of politics and existing political conditions, may intercept him somewhere in Europe and try to persuade him to attempt it. Those who know him best say that Admiral Dewey never changes his mind, after having once decided a question, and that he will give Mr. Whitney the same answer he has already given to others to the same reception next Sunday. Everybody, question,

commercial competition in the Philippins islands the peddler's pack has from Reno, Virginia and other neighfollowed the flag into the army. Even boring towns. guns are no more contraband of war. By dispatches, which have escaped the consorably of Brigidere General Otia, it is learned that he has offered \$60 apiece for those surrendered, muzzle that there will be no Catholic fair held down, by the bloody Ingals. Thus there as advertised, and, through the free trade has followed the flag to mil | Republican, cautions persons who are itary headquarters, and when the shooting match is over, the principal obtaining money under false pretenses, business of the Philipinos will be the fair having been prohibited by the swapping jackknives.

ILLUMINATION AND POWER,

The New Reno Electric Light Plant-Work Progressing Rapidly.

It does not require observation to see that Reno is rapidly developing, the fact is too evident. Elegant dwelling houses and tasteful cottages are springing up everywhere, new business houses are opened nearly every month, and on the busy streets may be seen gangs of workmen, tearing down old buildings to make way for modern structures of brick, stone and iron.

Most prominent among these municipal improvements is the splendid new brick and stone electric light and power building being erected on the south side of the river just opposite the western limit of Powning's Addition.

This building, the estimated cost of which is \$10,000, when completed will be 100 feet long, 50 feet wide and 22 feet high to the saves of the trussed iron roof. The walls, which are now nearly completed, are of stone with brick window trimmings. The floor is to be of concrete, making all absolute-Manheim has just received another | ly fire proof, so it will not be necessary

> Power, of course, is to be supplied by the Truckee. The wheel pit, almost completed, is 20 by 20 feet square. Water will be conveyed through a ditch and flume from the dam about two miles above.

About 300 feet distant from the wheel pit a bulkhead will be placed in Doane's show window. Special safe the flume, from which three separate pipes will bring the water upon a 600 Steel ranges-the Royal is the latest, horsepower which. The three pipe arrangement has been shown by hydaulic engineers to be productive of more power for the same volume of water

By means of this arrangement all danger of the will al becoming clogged up with ice during winter is obviated, and the power generated will be many times greater than that of the company's old plant, one mile further up the river.

In order to be provided against a low water emergency, in the south, end of the building will be located a boiler and engine room, 32 by 50 feet in dimen-

The building will be completed before winter, but no machinery will he placed in position before next spring, as the contract of equipping the power house will undoubtedly be let to San Francisco electrical dealers. All the machinery will be modern and new, as Mr. Kaiser and other members of the corporation are determined to bave one of the best power and light plants for its size on the coast.

An Injustice,

C. C. Wallace says injustice has been done him by the Journal and other papers in charging him with being the cause of the veto of the constitutional convention bill. He said that he had nothing whatever to do with it. He says, furthermore, that he was opposed to the bill creating the office of cattle inspector and also the one donating to the Lieutenant Governor \$1,800 a year. We cheerfully give Charley the benefit of his disclaimers-as we would if he had assured us he was not in Carson at all last winter .- Turcarora Times-

Possibly Mr. Wallace is forgetful. seems that the News has a vague recollection of a certain convention Wallace held in Reno and where there were three candidates for the office of Attorney-General. Bird whispers were to the effect that the present Lieutenant-Governor was one of them, and Charley certainly would not attempt fail to take advantage of the special to make us believe that he could induce such a loyal citizen of California lially in the Bartlett Springs Water Call at The Model and try one of to come over here and take up his Harry's own nickle cigars called "The abode without some assurances that a that celebrated water which is used at Model," the finest smoke on earth for salary would be attached to the position .-- Carson News.

Announcement,

I have just received a complete line of working and dress shirts of the latest patterns and styles, which I will sell at bedrock prices. Makes the food more delicious and wholesome ROYAL BAKING POWDER CO., NEW YORK

A BRILLIANT SUCCESS.

Last Night's Concert was the Musical Event of the Season,

For the first time since her return from the east, Miss Alice Mabel Stanaway sang before an audience of her own townspeople last evening. It has been said by theater goers that no attraction could draw a large audience to the Reno Opera House at this season of the year, but the packed auditorium of enthusiastic music lovers who came to hear Miss Stanaway sing, demonstrated that some things can draw an audience of Reno people out, even in summer.

The stage was beautifully decorated for the occasion, but this did not interest the audience, prettily decorated stages may be seen almost any time; what they wanted to see was Nevada's rising young prima dona, who presently appeared, modestly attired in a light blue evening dress, trimmed with black lace. Applause greeted her entrance, also that of Mrs. F. G. Newlands, the accomplished planist, who accompanied Miss Stansway throughout the recital.

Slowly and sweetly began the first song, "Too Young for Love," and when the last notes died away dead silence reigned a moment; then came the applause, which ceased only at the commencement of the next selection, an aria from the opera "Mitraue."

This was followed by a violin oblageto, "Happy Days," ia which Professor Hiliman, who has often appeared before admiring audiences, proved conclusively that he is among the higher exponents of the violen.

The entire evening's program of thirteen numbers was thoroughly enjoyed by all. Selections from Italian grand opera, German love songs and simple ballads were sung by the lute voiced Nevada girl, and long before the andience was weary the final "Autumnal Gale" had passed among the echoes. Seeing their reluctance to depart, Miss Stanaway seated herself at the piano and sweetly sang that old TUESDAY Scotch ballad, "Sweet Bessie, the Maid of Dundee," after which the audience dispersed.

An Editor Cloudbursted.

Elko was visited by a cloudburst last Tuesday. The Independent says the streets were rivers and lakes and the choice of the average citizen was to wade or swim. Brother Booher couldn't swim, and as the water in places was fully four feet in depth his curtailed altitudinosity wouldn't admit of his wading, and he came near being drowned like a rat in his office, which was invaded by the raging flood. He managed, however, to climb upon the imposing stone, and upon that lofty eminence remained safely perched, high and dry, until Constable Triplett of the Elko marine police force came Many of us are in matters political. It to his rescue upon a raft, hastily constructed from railroad ties which were luckily found in an obscure corner of the woodshed at the editor's palatial residence on the other side of the plaza.

Burtlett Springs Water,

The Reno Mercantile Company is doing a land office business in hardware, groceries, provisions and espectrade. The company is sole agent for all first class hotels in the United States. It is growing in popularity every day and is away in the lead of all other mineral waters, not only on the Pacific coast but all over the Union. It retains its mineral qualities indefinitely after bottling, and is as palatable and refreshing after years in glass as when first taken from the Springe. A case of it will auswer the same purpose as a visit to its fountain head which is one of the most popular resorts for health seekers on the American Continent.

"Payable in Silver."

Our esteemed evening contemporary we had always supposed was an ardent and consistent advocate of the single gold standard. Imagine our surprise when we learned that its checks upon the local bank with which it does business invariably bear the argentiferous legend: "Pay able in silver." The methods of the business department of our e.c. avidently don't jibs with the intellectual and political bureau of the journalistic aggregation. We had always given our neighbor credit for consistency and sincerity in its political heresies. But, alse! Another of our idols is ruthlessly shattered.

Volcanic Eruptions,

Are grand, but Skin Ernptions rob life of joy. Bucklen's Arnica Salve cures them; also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Outs, Bruises, Burns, Scalds, Chapped hands, Chilblains, in the mint are being shipped to San Best Pile cure on earth. Lambs in Demand.

Hon, P. L. Flanigan and A. J. Knolin will leave Reno this morning for Blue Lake, in Modoc county, Cal., by way of Amedee. They will take with them on the train a team and will drive from Amedee to Blue Lake, where at this season Mr. Flanigan pastures large bands of sheep. Mr. Knolin represents Swift & Co. of Chicago, and is here for the purpose of buying for the Chicago market all the lambs there are for sale. Mr. Flanigan will dispose of twentyfive thousand lambs, providing the price offered is satisfactory. They will return to Reno by the way of Pyramid Lake,

It will require seven or eight days to make the trip. Northwestern Nevada and Northeastern California is a large country, but it seems Mr. Flanigan is equal to its size, as a sale of twenty. five thousand lambs, representing ap. proximately sixty-five thousand dollars, could not be made by one man in a small country.

acres. Of this area the government geological survey estimates that 7,000,-000 acres can be irrigated successfully.
